

SMART INDIA HACKATHON 2026

VERDICT

India's Politician Accountability & Civic Intelligence Platform

Rate Your Neta. Know Your Money. Empower Democracy.

Problem Statement ID: **SIH26102**

Problem Statement Title: **AI-Powered System to Detect Anomalies, Fraud & Inefficiencies in MPLAD Scheme**

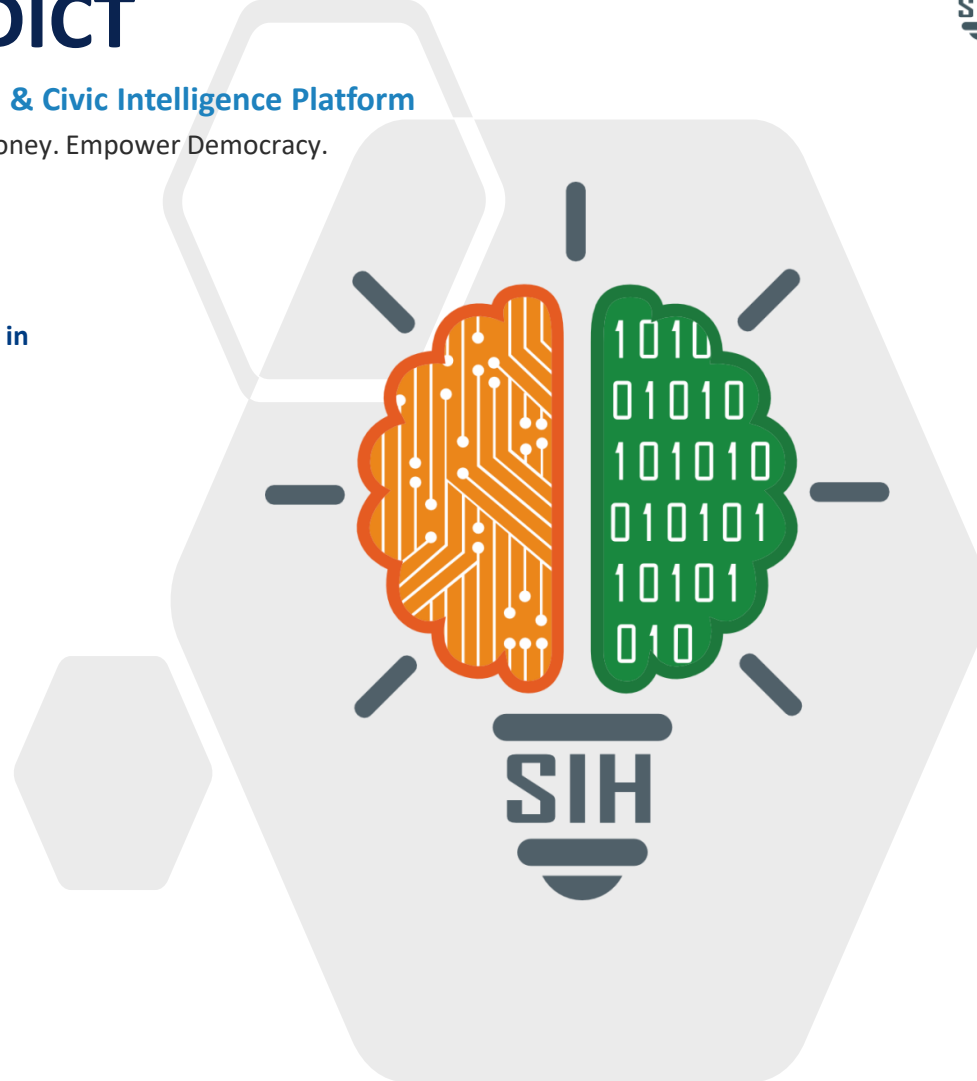

Theme: Miscellaneous / Open Innovation

PS Category: Software

Team ID: **SIH2026-TEAM-VERDICT**

Team Name: **VERDICT**

Live Platform: <https://verdict.vercel.app>

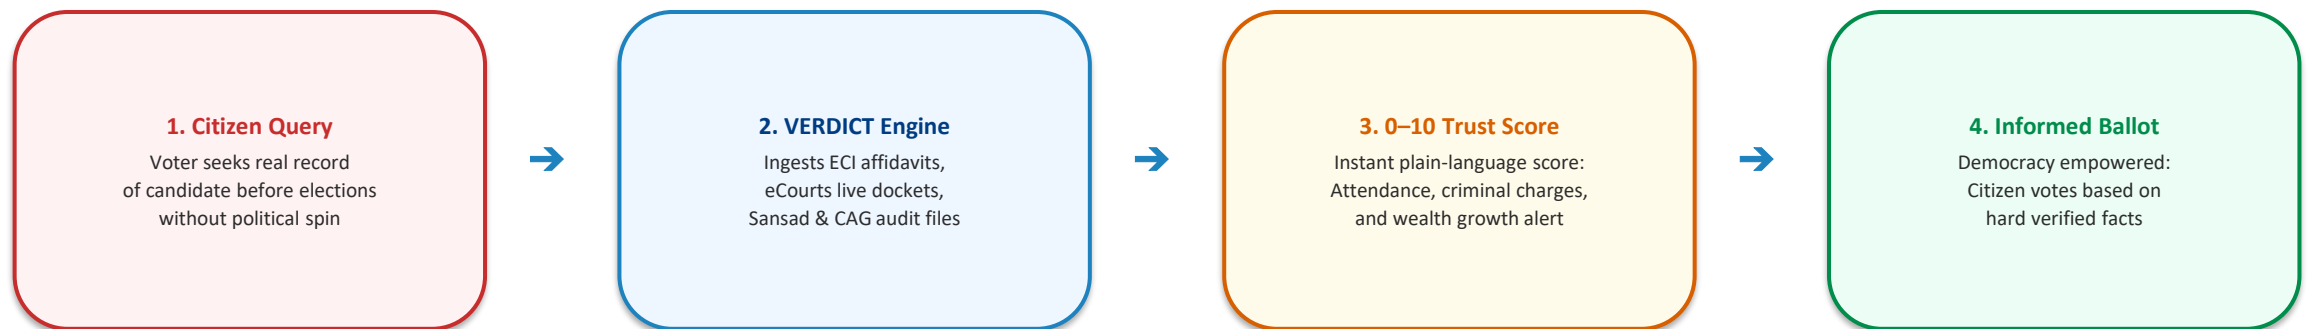

IDEA TITLE

THE CRITICAL CITIZEN PROBLEM IN INDIA TODAY:

- Candidate criminal cases & wealth records are locked inside 400-page scanned affidavits and complex legal terminology.
- Over ₹4.83 Lakh Crore in government fund misuse is buried inside technical CAG audit reports that voters never see.
- Citizens have no single place before entering the voting booth to check: 'Is my MP performing well?'

HOW VERDICT SOLVES THIS (ALL-IN-ONE CITIZEN INTELLIGENCE PORTAL):

- 0.0 to 10.0 VERDICT Score: A credit-score-like rating for all 543 Lok Sabha MPs based on verified public records.
- Plain-Language Criminal Translator: Automatic translation of IPC/BNS sections into 4 severity tiers and layman English.
- Ground Truth Money Trail: Interactive tracking of CAG audit findings, fund diversions & international cost benchmarks.
- Neta Face-Off: Side-by-side comparative matrix evaluating any two MPs on attendance, debates, wealth, and cases.

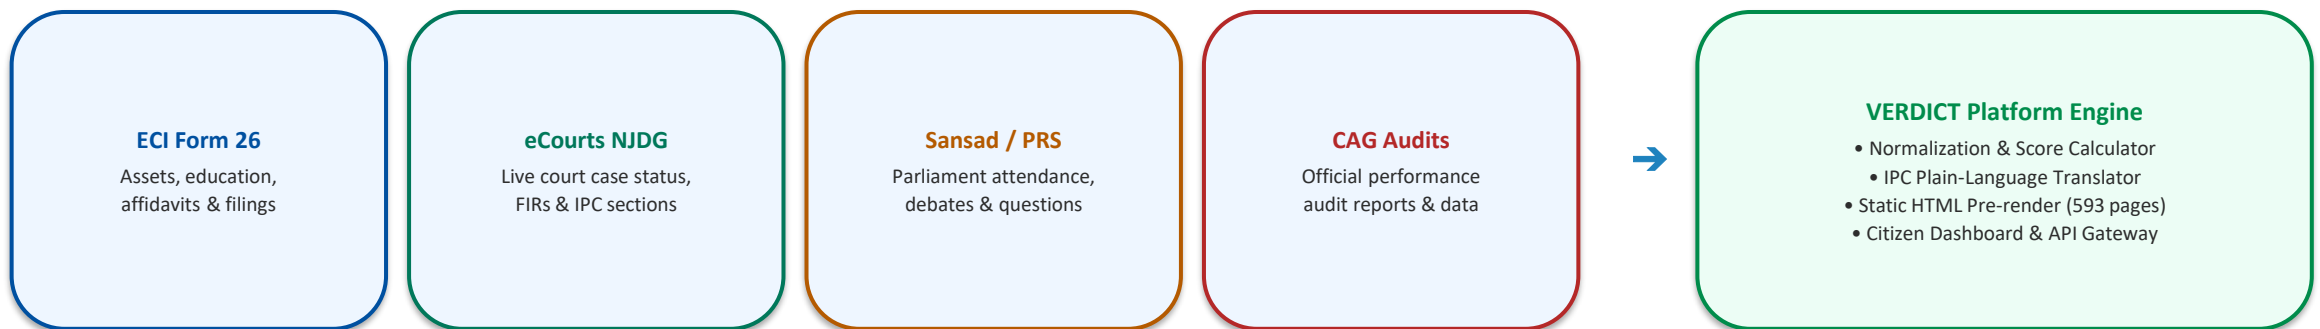

TECH STACK & ARCHITECTURE (Simple, Modern & Production-Ready):

- Web & Mobile UI: Next.js 15 (App Router) + React 19 + Tailwind CSS — responsive, fast PWA with 44px touch targets.
- Secure Database: PostgreSQL via Supabase with Row-Level Security (RLS), atomic RPCs, and zero client-side secrets.
- Automated Ingestion: Python pipelines (BeautifulSoup, pandas, requests) scraping ECI, eCourts & Sansad.in.
- Data Visualizations: Recharts for interactive asset growth trends, budget flows, and CAG category donut charts.
- Security & SRE: SSRF proxy validation, sliding-window rate limiting, Sentry telemetry, and 0-emoji Lucide icons.

MATHEMATICAL SCORING FORMULATION (0.0 to 10.0 Scale):

- Base Score: 5.0 / 10.0 (all elected MPs start with an equal neutral baseline).
- Positive Vectors: +2.0 (Parliament Attendance $\geq 90\%$) | +1.0 (Clean Legal Record) | +0.5 (Verified Degree & Loyalty).
- Penal Deductions: Up to -4.0 for Severe Criminal Prosecutions (Murder, Corruption, Rape) | -2.0 for >500% Asset Outliers.

IS VERDICT FEASIBLE? YES — PRODUCTION SYSTEM IS ALREADY LIVE & TESTED:

- Live Production Build: 593 static routes pre-rendered on Vercel at <https://verdict.vercel.app> with 0 build errors.
- 563 Real Politicians Ingested: Complete profiles for 543 Lok Sabha MPs with verified photos, portfolios & asset history.
- Rigorous SRE Testing: 49/49 automated unit & integration tests passing; P95 response latency <45ms under 100 VUs.
- Low Cost & Scalable: Entire serverless architecture operates under ₹1,500/month on cloud edge tiers.

RISK MITIGATION STRATEGIES (Overcoming Core Real-World Challenges):

- Data Scarcity Risk: Solved via automated multi-source scrapers with robust fallback mock caches for offline resilience.
- Legal / Defamation Risk: Solved by strictly presenting verbatim official records (CAG reports, Supreme Court orders, ECI Form 26).
- Bot Rating Spam Risk: Solved via server-side session checks, IP-based sliding window rate limits, and Zod input validation.

PHASE 1 (LIVE TODAY)

- v1.0 Operational
- 543 Lok Sabha MPs
- 10 CAG Scam Dossiers
- 593 Static Pages Built

PHASE 2 (6 MONTHS)

- v2.0 State Expansion
- 4,123 State MLAs
- 28 State Vidhan Sabhas
- State Budget Audit Tracker

PHASE 3 (12 MONTHS)

- v3.0 Citizen Identity
- 12 Indian Languages
- DigiLocker 1-Citizen-1-Vote
- Constituency WhatsApp Alerts

PHASE 4 (24 MONTHS)

- v4.0 Ground Truth AI
- Satellite Project Audits
- Live Sansad TV Speech NLP
- Blockchain Proof Ledger

IMPACT AND BENEFITS

MEASURABLE IMPACT & BENEFICIARIES ACROSS INDIAN SOCIETY:

- 96 Crore Registered Voters: Enables instant 10-second candidate audits before voting — ending democratic information asymmetry.
- Taxpayers & Citizens: Demystifies the ₹47.94 Lakh Crore Union Budget, tracking exactly where funds flowed or stalled.
- Grassroots RTI Activists: 1-click Section 6(1) RTI Form 'A' application generator targeting local Public Information Officers.
- Investigative Journalists: Centralized, source-linked repository of MP asset histories, party transitions, and court dockets.

SYSTEMIC DEMOCRATIC & NATIONAL BENEFITS:

- Disincentivizes Crime in Politics: Publicly exposes severe criminal charges and tracks disproportional wealth growth.
- Supports 'Digital India' & Open Governance: Converts fragmented, hard-to-read government PDFs into structured citizen insights.
- Promotes Issue-Based Politics: Moves electoral discourse away from divisive rhetoric toward verifiable performance metrics.

96 CRORE VOTERS

Empowered before elections
with instant 0–10 scorecards
and plain-language records

543 MPs PROFILED

100% 18th Lok Sabha
with attendance, wealth history
and court case dockets

₹4.83 LAKH CRORE

Public capital audited
across 10 verified CAG cases
with loss translation math

100+ GLOBAL INDICES

India's rank vs world
across 14 domains with
20-yr Rupee currency ledger
